

ZORON

Terms & Conditions of Sale

Prices and terms of payment are shown on the invoice. Terms are from date of invoice and not from date the goods are received. Funds are to be remitted to Zoron Manufacturing, Inc., P.O. Box 843, Apex, NC 27502-0843. Payment in U.S. currency only. Prices are subject to change without notice. Prices in effect at time of shipment will apply. Any outstanding balances unpaid on the date when due to Seller shall be subject to a non-refundable finance charge of 1½ % per month until paid. Buyer shall be liable for all legal fees incurred in collecting any unpaid balances. No additional orders will be shipped to customer unless account is maintained in a current status.

Backorders

Unless otherwise instructed, all unshipped items will be backordered and shipped when available. If you do not wish backorders, please state so at time of order. Customers refusing non-cancelled backordered merchandise will be liable for the shipping, insurance, and any COD charges incurred.

Claims

Claims for shortages, defects and nonconforming goods must be made by Buyer in writing within ten days of receipt of goods, and no claims made after the expiration of such period will be allowed. Buyer shall not return any goods without a return authorization. Our liability for material found to be defective is limited to the value of the goods sold.

Returns

Special order items or any returns after 30 days cannot be accepted. Customer will pay the freight cost of the return. In case of wrong items shipped, Zoron Manufacturing will credit the customer for the return freight cost. A handling charge may be accessed where applicable.

Delays

All orders are accepted by Seller upon the express understanding by Buyer that Seller will not be liable for delays in delivery of orders or inability to deliver order caused by or due to inability to obtain transportation or by reason of insurrection, fires, floods, storms, embargoes, actions of any military or civil authorities, whether legal or de facto, strikes, labor difficulties, acts of God or other circumstances beyond control of Seller.

Delivery

The delivery of the goods by Seller to the carrier at the point of origin shall constitute delivery of the goods to Buyer and thereafter the shipment of the goods shall be at Buyer's risk. All claims and allowances for damage to the merchandise incurred in transit must be filed against and presented to the carrier by Buyer.

Freight

All goods are FOB Apex, North Carolina. We do not pay freight. Title of goods transfers to the buyer (consignee) at time of shipment.

Minimum Orders

The minimum order is \$75.00. A \$7.50 charge will be applied to any order that falls below this amount. This does not apply to backorders.

Sale Terms

All sales are expressly limited to and made conditional upon the terms and conditions contained herein. Objection by buyer to any of the terms contained herein shall be deemed to have been waived if written notice of the objection is not received by seller within ten days of receipt of invoice or acknowledgement or before part of the described goods are accepted by buyer, whichever occurs first.

Payment

By Check: Customers whose checks are returned for uncollected funds will be charged a \$25.00 fee. Customers whose checks are returned a second time will be put on strict COD, cash in advance, or credit card terms (MasterCard, Discover, or VISA.)

By Credit Card: We accept MasterCard, and VISA as a form of payment.

ZORON

Product Information

Our products are manufactured with the finest materials and workmanship available from our domestic and overseas foundries. We maintain a quality control system to assure that goods shipped from our plant are free of defects. All weights and measures are nominal and may change without notice due to ongoing design improvements. Zoron products are fabricated from several different metals. Following are brief descriptions of each material to help you select the best one for the job.

Diecast Zinc

This is a rustproof alloy of zinc and other metals especially suited for metal forming in high pressure casting dies. The metal allows a smooth and attractive product at a lower cost than malleable iron or brass. While it is more brittle and not as strong as malleable iron or brass, its fine appearance, lower cost, and resistance to corrosion have made this a widely used material. Fine quality nickel plating provides the appearance of more expensive chrome.

Stainless Steel

All Zoron snaps of this metal are fabricated from either #304 or #316 stainless steel. #316 stainless is more resistant to corrosion but more costly. Not all products are available in both grades of stainless.

Welded Steel Wire

Zoron rings and "D" rings are made of low carbon steel wire and electroplated with nickel to provide rust resistance and a fine appearance.

Malleable Iron

This metal is formed in sand casting molds and heat treated to provide greater strength. This finished product is electroplated with nickel or zinc to provide rust resistance and an attractive appearance. This is a good choice where strength is required at a modest cost.

Stamped Steel

Zoron wire rope thimbles and rope clamps are made of various thicknesses of low carbon sheet steel and formed by extremely high pressure stamping presses. The finished stamping is electroplated with zinc to provide rust resistance.

Warranty Disclaimer

We warrant to the original purchaser that the goods sold to such original purchaser are free from defects in material and workmanship under normal use. Our obligation under this warranty shall be limited to thirty days from date of invoice. This warranty is expressly in lieu of all other warranties expressed or implied including the warranties of merchantability and fitness for any particular purpose on our part, and we neither assume, nor authorize any other person to assume for us, any other liability in connection with the sale of these goods. This warranty shall not apply to any part of these goods which have been subject to accident, negligence, alteration, of use or misuse. The term "original purchaser" as used in this warranty shall be deemed to mean that person to whom the goods were originally sold.

Product Safety Notice

If our product is to be used where safety is a factor, the manufacturer should be consulted as to adequacy. Under no circumstances should a cast or diecast part be used to support the weight of a human, or to be used where damage to property or personal injury might result.
